

**V00DCBC Series
Power Supply DC Cable**

DESCRIPTION

The V00DCBC1 interface cable connects OML's VxxVNA2 and SxxMS frequency extension modules to external DC power supplies.

One end of the cable is the 7 pin circular jack, which is compatible with the DC input of OML modules. The other end of the cable is the industry standard "banana-plug," which is compatible with most power supply inputs.

The standard cable is approximately three (3) feet in length to enable convenient interconnects between power supply and OML's modules.

This cable is RoHS compliant.

HIGHLIGHTS

- Bayonet 7-pin Circular Jack is compatible with standard VNA and Source modules
- Complies with RoHS regulations

APPLICATIONS

- DC cable offers compatibility with lab power supply
- Satisfies most compliance regulations

ORDER INFORMATION

Part Number	Description
V00DCBC1	DC Power Cable: Dual Banana Plug to 7 Pin Circular Bayonet Plug, 1 meter
V00DCBC2	DC Power Cable: Dual Banana Plug to 7 Pin Circular Bayonet Plug, 2 meter

V00DCBC Datasheet: Rev A
Release: 12-2012
